

Noblis Awarded Next Generation GSA OASIS Professional Services Contract

Noblis selected to provide professional and R&D services to federal clients across the program lifecycle

FALLS CHURCH, Va.—September 29, 2014—[Noblis, Inc.](#), a leading provider of science, technology, and strategy services to the federal government, is pleased to announce that the General Services Administration (GSA) has named us as one of the 74 awardees of the One Acquisition Solution for Integrated Services (OASIS) professional services contract. The award is an indefinite delivery, indefinite quantity (IDIQ) contract vehicle for integrated, complex professional services, including program management, scientific and technical consulting, engineering support, environmental consulting, research and development, and other professional, scientific, and technical services.

“This is a significant win for Noblis and will give us even more ability to provide our clients with the best possible science, technology and strategy solutions,” said [Amr EISawy](#), President and Chief Executive Officer, Noblis.

“The OASIS contract gives the government an easy-to-use alternative to obtaining the vital services, such as telecom strategy and engineering, enterprise transformation, system engineering, cloud strategy, agile program management, sustainability tools, and many other capabilities, that we provide to our clients across the federal government,” said [Don Schaefer](#), Vice President, Enterprise Engineering and Environmental Solutions, Noblis.”

With the OASIS vehicle, Noblis clients will benefit from:

- the ability to acquire turnkey solutions for multiple professional services under a single task order;
- a 10-year ordering period with a 15-year period of performance; and
- authorized delegation of authority so agency contracting officers can use OASIS to issue task orders.

This contract supplements Noblis’ existing list of contract vehicles, including MOBIS, IT-70, and Seaport-e.

About Noblis

Noblis, Inc. is a nonprofit science, technology, and strategy organization that brings the best of scientific thought, management, and engineering expertise in an environment of independence and objectivity. We work with a wide range of government and industry clients in the areas of national security, intelligence, transportation, healthcare, environmental sustainability, and enterprise engineering. Together with our wholly owned subsidiaries, Noblis ESI and Noblis NSP, we tackle the nation’s toughest problems and support our clients’ most critical missions.
