

GSA One Acquisition Solution for Integrated Services

Contract Overview

The General Services Administration (GSA) One Acquisition Solution for Integrated Services (OASIS) contract is designed to address agencies' needs for a full range of service requirements that integrate multiple professional service disciplines and ancillary services/products with the flexibility for all contract types and pricing at the task order level.

The objective of OASIS is to provide government agencies with total integrated solutions for a multitude of professional service-based requirements on a global basis. The services to be provided under OASIS are intended to meet the professional service mission requirements of all federal agencies, including all organizations within the Department of Defense (DoD) and the national security community.

General Areas of Support

Program Management Services

Leading, facilitating, and ensuring the strategic planning, implementation, coordination, integration, and evaluation of programmatic activities and administrative systems.

Management Consulting Services

Helping organizations improve their performance, primarily through the analysis of existing organizational problems and the development of plans for improvement.

Scientific Services

The application of comprehensive scientific and professional knowledge in planning, conducting, evaluating, and managing fundamental research, knowledge enhancement, and/or technology development and innovation.

Engineering Services

Any service or creative work, the adequate performance of which requires education, training, and experience in the application of special knowledge in consulting, investigating, evaluating, planning, and designing engineering principles.

Logistics Services

The management of the flow of resources, not only goods, between the point of origin and the point of destination in order to meet the requirements of organizations. Services involve the integration of information, transportation, inventory, warehousing, material handling, packaging, security, and any other function necessary to the flow of resources.

Financial Management Services

The planning, directing, monitoring, organizing, and controlling of the monetary resources of an organization.

Noblis is an OASIS Pool 1 and Pool 4 Contract Holder. See NAICS codes on reverse.
